SB 2442 Fair Patient Billing Act- No position

SB2744 Vaccine Admin Fee- The Council is NEUTRAL with Senate Committee Amendment #1.

SB 3305 Dental Loss Ratio- (technical amendment needed). We requested coverage to begin on 1-1-2026. We reached out to the stakeholders to correct the oversight. With that change we will be neutral with Senate Amendment #2.

HB 2385 Colonoscopy Coverage Mandate- OPPOSE. We would request that coverage begin on 1-1-2026 to align with the Department of Insurance's policy filing timelines. When the bill was introduced last year, the House sponsor did change the effective date to align with the timelines provided by the Department. However, this bill is now moving in 2024 (and not 2023), so we would request the timeline be moved to align with the timelines once again. The Council did express these concerns with the Senate Sponsor.
